

Information

on our Salary and Remuneration Policy

General

The Regulation “Salary and Remuneration Policy” issued by LGT Capital Partners (FL) Ltd. (hereafter “LGT CPFL” or “the company”) defines the basic principles of the company’s remuneration system. It sets consistent standards for all staff and defines inter alia the policy and practice with regard to variable remuneration as well as the applicable parameters.

Regulatory Requirements

LGT CPFL, being a Fund Management Company respectively an Alternative Investment Fund Manager for collective investment schemes under the UCITS and AIFMD regimes domiciled in Liechtenstein, is subject to the supervisory requirements regarding the guidelines of sound remuneration policies.

The remuneration system targets an alignment of interests between clients/investors and the company, avoids incentives for inappropriate risk taking and is in line with the sustainable long-term financial development of the company. The remuneration system also fosters sustainable staff behavior in accordance with the Sustainable Finance Disclosure Regulation (“SFDR”) and shall contribute to meet sustainability goals to which LGT CPFL committed itself. Considering proportionality, main measures to achieve these goals are deferred payouts of parts of the variable remuneration and co-investments into LGT Capital Partners-managed products, for so-called Identified Staff.

Sustainability Goals

LGT CPFL staff is at the center of all measures to promote sustainable business activities and to reduce the company’s adverse sustainability impact. LGT CPFL encourages sustainable behavior of staff through sustainability goals and by setting financial incentives in relation to remuneration structure of each staff. LGT CPFL has therefore introduced a “Sustainability Objective” in the annual staff assessment process. In order to meet the objective, LGT CPFL expects its staff to act consciously in order to reduce the carbon footprint or other environmental damages and to promote the Sustainable Development Goals (“SDGs”) in their business activities.

Compliance Conduct

LGT CPFL has introduced a “Compliance Conduct Objective” applicable for all staff in the annual appraisal process. Thereby, it sets incentives to adhere to the Code of Conduct, to lead by example, as well as to cultivate professionalism and integrity. This shall support the overarching goal of staff being compliant with the company’s policies and directives as well as with all applicable laws and regulations.

Identified Staff

Identified Staff are the company's senior management, risk takers, responsible control functions, as well as other staff in the same senior management remuneration bracket, whose professional activities have a material impact on the company's risk profile or the risk profiles of collective investment schemes managed or advised by the company.

Base Salary

Salary levels are compared against peer groups and are reviewed annually.

Profit Sharing

The variable remuneration is risk-adjusted and depends on the sustainability of the staff's particular performance as well as the company's success. The performance goals include financial and non-financial criteria, including sustainability goals and compliance conduct. The relationship between immediate and deferred remuneration avoids incentives to take excessive risks.

In a given year, the variable remuneration can vary depending on the individual's and the team's performance, which is assessed in regular staff reviews (balanced scorecard). The reviews cover financial and non-financial criteria over a mid-term horizon as well as management, teamwork, development, client-related, sustainability, compliance conduct and other objectives.

Deferral

40%-60% of the annual variable remuneration of Identified Staff is deferred for at least 3 years after allocation. An annual pro rata payout of the deferred amount is possible. The deferral amount is calculated net of deductions for social security contributions and tax. Deferred remuneration is held in a restricted account in the name and on behalf of the Identified Staff with LGT Bank Ltd., Vaduz.

Co-investments

In order to further align interests with clients/investors and participate in the economic development of the collective investment schemes managed/advised by the company, Identified Staff are subject to hold Co-investments of 50% of their most recent variable remuneration in eligible LGT CP funds. The amount to be co-invested is calculated net of deductions for social security contributions and tax.

LTIS

LGT Group's and LGT CP's "Long Term Incentive Scheme" qualify as eligible Co-investment. Its value is dependent on the long-term economic success of LGT Group or LGT CP, respectively, as well as the long-term investment performance of the princely portfolio.

Risk Taker

Risk-takers (e.g. portfolio managers) are bound to meet this requirement by investing predominantly into products managed/advised by their own team/department.

Control Functions

The variable remuneration of staff in significant control functions is essentially determined independently of the course of business and the success/failure of the funds monitored. These employees have the option either to co-invest or to hold their variable deferred remuneration in cash.

Clawback

Deferred variable remuneration is subject to a contractual clawback provision, which can be applied if certain clearly defined conditions are met.

Disclosure

The remuneration-related rules are disclosed in the annual reports of the LGT CP funds in accordance with the legal requirements. These reports are available in the official publication medium. The regulation itself can be obtained at the company free of charge.

Governance

The Board of Directors of LGT CPFL is ultimately responsible for the design and implementation of the company's remuneration system. It annually reviews (1) whether the remuneration policy and practice is compliant with the applicable regulatory rules and regulations, (2) the actual remuneration of Identified Staff and (3) the effectiveness of the remuneration system with regard to the avoidance of inappropriate or excessive risk taking. The review is supported by Group Internal Audit, Legal and Compliance.

Further Information

This Information Statement is issued for informational purposes only. This Information Statement is not intended as investment advice and is not an offer or a recommendation about managing or investing assets and should not be used as the basis for any investment decision. The information contained herein is current as of the date of issuance and is subject to change without notice. We do not make any express or implied warranties or representations as to the completeness or accuracy or accept responsibility for errors. No risk management technique can guarantee the mitigation or elimination of risk in any market environment. Past performance is not a guarantee or a reliable indicator of future results and an investment could lose value. All investments involve risk, including the possible loss of capital. Before investing in a particular fund, a prospective investor should read the relevant fund prospectus and should understand the risks, costs and terms of investment in that particular fund.
